

Why choose smartbags?

We represent a long standing and loyal team of factories who maintain an expert understanding of the wholesale supply of reusable eco bags - creative, customisable and cost efficient.

Why is this important?

This loyalty is a significant factor which enables us to offer our clients a highly dependable bespoke service which is second to none, with attention to detail highlighted by supreme stitching efficiency and the finest printing finish creating memorable looking bags featuring your artwork!

Evidence?

A bargain bag price may not seem so attractive when you open up those cartons and really see what you're getting for your money. We still offer very competitively priced products but the true value within our service is the impeccable **smartbags** tolerance levels which bring your vibrant designs to life.

Are smartbags really eco-friendly?

We are very excited about 2011 being at the forefront of supplying high quality, low cost reusable eco bags to the UK marketplace made from recycled content. Plastic bottles are transformed into rPET **smartbags** with each bag being made from 3 recycled bottles!! An additional cutting edge hybrid speciality is **smartbags** Non-woven rPET material, continuing our genuine impact on reducing landfill.

How can my business truly benefit??

Your business can advertise your product or marketing campaigns and target a mass audience like never before — featuring the sharpest printing techniques and 100% double sided silk screen print coverage at no extra cost whilst benefitting from an already well oiled Non-woven and Woven PP infrastructure.
